

PLAN COMPARISON

401(k) VS. 457(b) AND ROTH 401(k) VS. ROTH 457(b)

The South Carolina Deferred Compensation Program (Deferred Comp) provides participants with a supplemental retirement savings strategy through its 401(k) and 457(b) retirement savings plans.

Traditional contributions to the 401(k) and 457(b) plans are made on a before-tax basis and you pay taxes only when you take a distribution. Roth contributions are made with after-tax dollars, which means you have already been taxed on the money before it enters your account(s). Deferred Comp gives you the choice: Would you rather pay taxes now or later?

1 In 2020, if you are under age 50 you may contribute a total of \$19,500 to each plan, including the Roth options. For example, you may contribute up to \$19,500 between the before-tax 401(k) and Roth 401(k). You may contribute up to an additional \$19,500 between the before-tax 457 and Roth 457.

2 You may not use the special 457(b) catch-up provision and the age 50+ catch-up provision in the same calendar year.

3 For before-tax balances only. Roth funds cannot be rolled over to purchase service credit.

4 You are allowed one active loan across all Deferred Comp accounts.

5 Withdrawals may be subject to ordinary income tax. Withdrawals made prior to age 59½ may incur a 10 percent early withdrawal penalty. The 10 percent early withdrawal penalty does not apply to 457(b) plan withdrawals.

6 Any employer-matching contributions are classified as before-tax contributions and are treated the same as traditional matching contributions, which may be subject to taxes when you take a distribution.
